#3 2025: An hour from idea to impact:
AI for Innovation

Speaker: **Eric Paquin**

Date: **Tuesday 11ᵗʰ March 2025**

Time: **10.00am GMT / 2.00pm GST / 11.00am CET**

Duration: **45 minutes**

Ever wondered how AI could help your innovation work, but felt overwhelmed by the tech-speak? You're not alone!

Join us for a relaxed session where we'll explore how AI tools can supercharge your innovation (and other) processes - no fancy jargon required.
Think of it as having a chat with friendly colleagues who've been experimenting with these tools and want to share what actually works.

What to expect:
- Real stories of AI success (and amusing failures!) in innovation projects
- Suggestions (and feedback) on practical tools you can start using tomorrow
- Plenty of time for those "silly" questions we're all thinking about

Bring yourselves, your questions, and your curiosity. We're all learning together, and sometimes the "obvious" questions lead to the best discoveries.

Dial-in details as follows:
